### Profile

I am a passionate front-end developer with effective and productive communication skills forged from a background in health services. I'm eager to learn and develop user-centric solutions that lead to intuitive, accessible and satisfying products.

### Skills

React (hooks and classes)  
JavaScript(ES6+)  
HTML5/CSS3/SCSS  
Responsive Design  
Website Accessibility Requirements  
RESTful API integration  
Firebase  
Paired Programming  
Team-based Development  
Adaptive Approaches  
Problem Solving

### Educational Training

**Web Development Bootcamp**  
Juno College  
FEB 2021 TO MAY 2021  
**Honours Bachelor of Kinesiology**  
Wilfrid Laurier University  
SEPT 2015 TO JUNE 2019

### Projects

#### AniWho?

React/API/CSS3

A quiz game built in react that utilizes an interactable onscreen keyboard.

#### WhatDoUNo

React/Firebase/API/SCSS/Pair programming

A word game based on homophones that utilizes a RESTful API, and stores highscores in firebase.

#### SuperHeroUniverse

Javascript(ES6+)/API/HTML5/CSS3/Pair Programming

An application that provides an interface for API interaction with an auto-completing dropdown menu.

#### Delicious

HTML5/CSS3

A responsive website design reproduction based on a client brief.

### Experience

**Web Development Intern - (Asian Canadian Special Events Association)**  **July 2021 to Sept 2021**

- Worked together with a small team of web developers to create an art gallery for TAIWANfest 2021.
- Cooperated with a design team of artists to add interactivity to their art pieces to enhance the user's online cultural experience

**Program Assistant - Mental disorders Research and Rehabilitation Centre** **Sept 2018 to sept 2019**

- Helped deliver an exercise program for seniors diagnosed with Parkinson's Disorder by communicating the details of the program's regimen to participants in a clear and concise manner.
- Further facilitated program activities by guiding participants through their assigned tasks in a one-on-one approach.
